TEST REPORT

CLIENT : SPARTAFLEX PTY LTD
16 AUROURA PLACE
NEWPORT QLD 4020

TEST NUMBER : 7-577071-NQ
ISSUE DATE : 15/02/2011
PRINT DATE : 24/02/2011

SAMPLE DESCRIPTION Black Rubber insulation
Colour: Black

ISO 8302-1991 Thermal Insulation (Guarded Hot Plate Test)

Test conditions:

Mean Heat Flux(W/m2) 28.352
Mean Rct (m2K/W) 0.045

SEE SPREADSHEET FOR FURTHER RESULTS

The thermal resistance values contained in this report are determined by testing in accordance with ISO 8302 and specifically describe the steady state thermal properties of the tested product associated with that method of test

Results contained in this report do not infer thermal information where the product is used under conditions differing from those under which the product was tested

It should be noted that whilst sufficient time has been allowed prior to testing for the product to recover from compression during transit it has been tested at the thickness nominated in the report. This may differ from the client's expectations of nominated thickness at the point of manufacture, we have therefore included the additional calculated measure of the thermal resistance at the client's nominated thickness

The results contained in the report are those which have been requested and do not necessarily denote compliance in entirety to ASNZS 4859.1

185806
